

# INNOVATIVE MAINTENANCE CHEMISTRY FOR **BIOGAS PLANTS**

- ▶ Our products, specially designed for long-term lubrication require only little physical and personal effort.
- ▶ Our qualified lubricant consulting allows an optimal application of the product.

## FERMENTER AND FEEDER

**500** WDT GREASE: ▶ all lubricant areas ▶ durability 4 times longer

**810** PROTECTION-WAX:  
▶ all lubricant areas ▶ durability 4 times longer  
▶ Application: slurry store  
▶ all castings

## SUBSTRATE DISTRIBUTOR

**500** WDT GREASE ▶ all lubricant areas ▶ weather resistant  
▶ lubricate only once a month

## AGITATOR FERMENTER EXTERNAL AREA

**500** WDT GREASE: ▶ all lubricant areas ▶ durability 4 times longer

**105** SIS: ▶ **chain 1. Step:** penetrates, cleans, dissolves, lubricates

**135** HKS: ▶ chain 2. Step : seals, protects against elutriation in free weather, protection against corrosion  
▶ durability 6 times longer

## AGITATOR FERMENTER INTERNAL AREA

**500** WDT GREASE: ▶ all lubricant areas ▶ durability 4 times longer

**105** SIS: ▶ **chain:** penetrates, cleans and dissolves, lubricates

## ELECTRICITY AND HEAT GENERATION

**500** WDT GREASE: ▶ all lubricant areas ▶ durability 4 times longer

**105** SIS: ▶ **chain:** penetrates, cleans and dissolves, lubricates

**270** IR-SA: ▶ cleaning of sooted engines  
▶ removal of oil residues
